

Offer a Dental Plan That Helps Pay for Vision Expenses

Ameritas combines dental and vision benefits into one easy-to-use plan that results in out-of-pocket savings for your business and your employees.

Employer benefits

- lower premiums by combining dental and vision into one plan
- both dental and vision benefits share one policy, one enrollment form, one payroll entry and one bill, which makes plan administration easier for you

Employee benefits

- choose how to spend benefit dollars where they need them the most
- visit the dental and vision providers of their choice
- save up to 25-50% when they visit an Ameritas Dental Network dentist
- see any dentist they choose, regardless if they are in- or out-of-network
- visit any vision care provider because there is no network

You can offer full dental and vision plans with robust coverage, not just preventive benefits, in one simple plan.

Members choose how to use benefits

Employees have the flexibility to choose how they spend a shared portion of their annual maximum. Members can use their entire maximum for dental care, or use up to the shared dental/vision maximum on eye exams, glasses or contacts and the remainder on dental expenses. Benefits cannot exceed the full annual dental maximum.

Dental Maximum	Shared Dental/Vision Maximum

Example

If the dental plan you offer has a \$1,500 calendar max and a Fusion vision benefit of \$150, your members can spend \$150 of their dental max on out-of-pocket vision expenses - it's that simple!
